

# DATA ACTION MINI GRANT

## Supporting data informed change action.

The goal of Data Action Mini Grants will be to respond to needs or gaps identified by the child dashboard.

### How do the Mini Grants work?

**Observe** trends impacting Children's Mental Health using the Elkhart County Child Dashboard.

**Create** a proposal for community action that targets the observed trend.

**Receive** up to \$2,000 to enable immediate action on your proposal.

**Implement** your change action and report how it impacts the lives of children in Elkhart County.

Supported through:

# Application Process

Data Action Mini Grants are designed to provide access to funding with minimal barriers. These grants are a perfect tool for partners to fund a brief pilot program, community needs assessment, staff training, and/or an outreach effort, just to name a few.

## A successful proposal will:

- cite data from the Child Dashboard
- have a specific action that targets a data trend
- include expected measurable outcomes
- have a start and end date for the proposed action

## Who can apply for the Mini Grants?

Must be an Elkhart County organization, association, or group that serves children and/or families, and is a current or prospective collaborating partner that participates in Quarterly Child Dashboard Action Meetings.

## How long does the proposal have to be?

The proposal is pretty short, 1 page max. For the application template and more information, please contact us.
